

Saloni Rai

Senior Product Designer specializing in agentic systems, conversational AI, and enterprise SaaS. Experience spanning Salesforce Agentforce Sales, Partner Cloud, and high-growth startups, translating emerging AI capabilities into production-ready customer experiences.

Work Experience

Senior Product Designer, Salesforce Jan 2026 - Present

Product Designer, Salesforce May 2024 - Jan 2026

- Designing AI-powered experiences across Agentforce Sales and Partner Cloud, shaping next-generation agentic CRM experiences for enterprise customers.
- Led the design of a Headless Partner Agent, enabling scalable deployment of AI-powered partner support across WhatsApp, Slack, Apple Messages, and Partner Portals.
- Designed key workflows for the Sales Workspace MVP, contributing to a flagship Sales Cloud product that later scaled to enterprise customers worldwide.
- Partnered with Product, Engineering, Marketing, and Executive Leadership to deliver 5+ flagship Agentforce Sales experiences showcased at Dreamforce 2024, Dreamforce 2025, and Salesforce World Tours.
- Established AI-native design workflows using Cursor, Claude Code, and Figma plugin automation to accelerate product discovery, prototyping, and delivery.

Product Designer, Springworks May 2022 - Feb 2024

- Designed web, mobile, and conversational experiences for 16+ AI-powered features.
- Contributed to an MVP that attracted 5,000+ organizations and 30,000+ users within 8 weeks.
- Designed conversational experiences that increased average revenue per subscriber by 15%.
- Improved design operations and handoff processes, reducing post-handoff clarification time by 3+ hours per week.

Educational Background

National Institute of Fashion Technology, Mumbai 2018 - 2022

- Bachelor of Fashion Technology (B.FTech), specializing in Supply Chain, Product Development, and Retail Management.
- Selected for the Harvard Project for Asian and International Relations (HPAIR) Asia Conference; won the flagship Impact Challenge.
- GPA: 8.4/10
